

DeGrey Civil Company Profile

Introduction and Company Overview

DeGrey Civil has a proud history in the **Pilbara region** dating back to the early nineties. The business has grown since then, evolving from the provision of plant hire to a **civil contracting** entity performing works such as concrete, culverts, earthworks and pavements. In 2014 we added the capabilities of well known Mandurah business Red Roo Civil to expand our services to **Perth** and the growing **Peel region**.

With a head office in Perth and depots in Port Hedland and Pinjarra, the business has maintained an annualised turnover in excess of \$20 million.

The key focus of the business is to provide value-add services to its clients through development of sustainable business **relationships** with key stakeholders. These close ties allow personnel at DeGrey Civil resolve (seemingly complex) issues as they arise.

Our **honest** and professional approach enable us to deliver projects not only on time and to the quality required, but with no harm as exemplified by over 700,000 hours LTI free.

As a result of this **commitment**, DeGrey Civil won the CCF Earth Award for 2012 in Category 4 – Projects valued from \$20 million to \$75 million for our Port Hedland Area G Project.

"The vision of the business is to deliver quality services, utilising the diverse experience of our team and offering tailored solutions to our customers."

DeGrey Civil won the CCF Earth Award for 2019 in Category 2 – Projects valued to \$5 million for our Utah Road Rehabilitation Project.

Why DeGrey Civil?

We offer a full range of civil services to our customers including:

*Earthworks, Subdivisions, Road construction, Pavements, Drainage
Concrete, Cartage, Plant Hire, Materials supply, Clearing and Mulching,
Services, Project Management*

DeGrey Civil staff have extensive construction **experience** in airport, road, rail, port and public infrastructure projects - specialising in regional Western Australian environments. There is no one size fits all approach taken at DeGrey Civil and we are keen to work with our customers to deliver bespoke **solutions** to any new or existing project or issue.

DeGrey Civil offers an extensive range of civil engineering and contracting services ranging from urban land development and marina construction to road works and project management. Please visit www.degreycivil.com.au for more details on our successful projects.

Local Contractor

Our Wedgefield workshop and office provides us with a convenient base for our Northwest operations. Projects from Onslow to Broome and Port Hedland to Newman have ensured our experience is wide and varied.

DeGrey Civil are pleased to support the Hedland community and are committed to putting back into the local area. This involvement has included sponsorship of the Hedland Speedway, the Port Hedland United Football Club, the FINI Club, the Port Hedland Pro-am Golf Championship and the Port Hedland Cup.

We are also proud members of the Port Hedland Chamber of Commerce and the Civil Contractors Federation and are fully supportive of the initiatives that these groups pursue in the interests of the region and in particular, the civil contracting industry.

The Team

John Swioklo
General Manager - Director

John's extensive experience garnered over 25 years in the Western Australian marketplace enables his clear and direct vision for the business and provides key stakeholders with the confidence that DeGrey Civil has the expertise necessary to deliver successful outcomes.

Ken Hicks
Superintendent

Ken has been instrumental in achieving significant project outcomes of time, cost, and quality and client satisfaction on many of our projects. Ken's many years of supervisory experience and open communication style with Client and crew alike are key to achieving high performance safely.

Allan Holland
Operations Manager

Believing in a personalised approach, Allan likes to be hands-on in his management style and quickly establishes a rapport with key stakeholders to enable open communication and dialogue. His attention to detail and proactive approach enables the identification of bespoke solutions to any project issues.

Michael Jack
Supervisor

Prior to joining the Team on a full-time basis, Michael has worked with us over many years as a subcontractor. His experience in the industry and operational skills and knowledge give Michael the perfect platform for supervising our projects to achieve our goals and objectives.

Plant and Equipment

We have a modern, well maintained mine specified fleet of internal equipment and competent operators. Our fleet includes:

- Graders – CAT140M, CAT14G
- Loaders – CAT980, CAT966, CAT950
- Excavators – CAT385 (85t), CAT336 (36t), PC300, PC7.8
- Artics – Cat 740 Ejectors and End Tippers
- Watercarts – 6 Wheelers and semi
- Service trucks – 6 Wheelers
- Dozer – CATD9 and CATD7
- Scraper – Cat 633
